

# Sioux Falls

National speaker Dr Sandra Stotsky

## CORE CONCERNS

(Conference on Common Core)

### What You Don't Know Will Hurt Your Kids!

#### Common Core...

- is a set of national K-12 standards that takes away local control of South Dakota Schools and shifts all control to the Federal Government in exchange for the promise of Federal Funds

- gives the Federal Government and certain large corporations access to your child's private personal and biological information for data collection **WITHOUT PARENTAL NOTIFICATION OR CONSENT.**

- is a top-down approach to education imposed upon ALL South Dakota K-12 (maybe earlier) students in **PUBLIC, PRIVATE AND HOME SCHOOLS** by the South Dakota Board of Education.

- was quietly developed by **private entities, called "stake holders"** which **benefit them financially** when states adopt Common Core Standards. These entities were not subject to sunshine laws or open meetings

#### Who voted for this?

- **NO ONE!** The Common Core State Standards were not reviewed by the South Dakota Legislature. They were simply placed into policy by the South Dakota Board of Education, appointed by the Governor.

**Learn the whole story of The Common Core Standards  
and what you can do to protect your children!**

**Date: October 5, 2013, Saturday**

**Time: 8-9 registration, 9a –3:30p program**
